

BUILDERS READY

INVESTOR OVERVIEW · PRE-SEED

Every build, from the first quote to the final payment.

The client portal UK builders use to quote, run the job, hand over and get paid — in one branded app.

Raising £50k–£100k

buildersready.uk

THE PROBLEM

The average UK builder runs a £100k job on WhatsApp.

- **The client approved the tiles... or did they?**
No record. Disputes at the end of every job.
- **The quote was £X. The final bill is £X + extras.**
Variations lost in texts; margin quietly leaks away.
- **The final invoice gets chased by text for weeks.**
Getting paid is the hardest part of the job.
- **The handover is a carrier bag of receipts.**
Nothing that proves the job was done right.

94%

of construction firms
still run the job on
spreadsheets, paper
and messaging apps.

THE SOLUTION

One branded app for the whole client-facing job.

Builders Ready replaces the WhatsApp-and-clipboard patchwork with a single flow the client follows on their phone.

THE PRODUCT

Not a concept. Already shipped.

A full multi-tenant SaaS — live today on iPhone, Android and web, built and shipped by the founder over the last 18 months.

iOS

Android

Web

UK-hosted · GDPR

WHAT IT DOES

The whole job, in one place.

Quote on site

Build from your own rates; client signs on their phone.

Signed decisions

Every choice logged, dated and agreed — no disputes.

Variations, signed

Extras priced and signed before the work starts.

Staged payments

Invoices paid by card or bank, straight to your account.

Cost & margin

See the margin on every job as costs land.

One-tap handover

A clean PDF that proves you delivered.

WHY NOW · MARKET

The UK's biggest SME sector is still on paper.

885,000

UK construction businesses — the largest SME sector (99% small firms).

~200,000

Client-facing builders who quote homeowners and run projects — our SAM.

~£1.4m ARR

A 1% share of that SAM at our pricing — our 3-year target (SOM).

£2.2bn

UK construction software market, growing
~15%/yr

94%

still run jobs on spreadsheets & messaging
apps

Digital-native

a new generation of builders expects an app

BUSINESS MODEL

Recurring SaaS, plus revenue on every payment.

Starter

£29 /mo

up to 5 active projects

Pro

£69 /mo

up to 15 active projects

Unlimited

£149 /mo

unlimited projects

+ £3

platform fee on every client payment – revenue that scales with usage

~85%+

gross margin – typical for SaaS

Sticky

once a builder runs live jobs through it, switching means moving active clients

BUILDERS READY

Confidential – Investor overview

07

TRACTION

Built to launch-ready on almost no capital.

What one founder has already done — before raising a penny:

● **18 months**

Designed, built and refined against real projects for a live UK builder.

● **Rebuilt as SaaS**

Re-architected into a multi-tenant product and opened to any builder.

● **Shipped x3**

Live on iPhone, Android and web, with payments via Stripe.

● **First builders**

Pilot builders onboarded; a stocked demo ready for sales.

● **Creators lined up**

Influencers with large trade followings quoting to promote it.

● **Marketing engine**

Site, blog, socials and print all live — ready to scale with fuel.

GO-TO-MARKET

A growth engine that's built — and waiting for fuel.

This is what the raise switches on. Every channel below is already set up or in motion.

Creators & influencers

READY

Trade creators with large followings already quoting to promote Builders Ready.

Paid ads & content

IN MOTION

Google, Meta and TikTok, plus the blog and SEO foundation already live.

Direct sales

LIVE

A dedicated salesperson onboarded to demo and close builders.

Expos, events & referral

PLANNED

Construction expos, a local flyer drop, and a builder-to-builder referral loop.

COMPETITION

Job-management tools look inward. We face the client.

Where we win

- The client experience is the product — not an afterthought.
- Quote, signed decisions, staged payments and handover — one flow.
- We get the builder paid; back-office tools stop at the invoice.
- A branded app the client keeps on their phone for the whole job.

TEAM

A founder who built it — and momentum behind him.

Oddie Mehraj

Founder

Designed, built and shipped Builders Ready end to end — product, web and mobile. Came from the problem, not from software.

Zahra Nezam

Sales

Joined 2026 to drive builder acquisition — demos, outreach and closing. First hire, funded to scale.

Advisor

Construction

A retired construction operator advising on the trade, credibility and route to builders.

THE ASK

Raising £50k–£100k

to turn a built, live product into a growing subscriber base.

Use of funds

What it buys

- 12–18 months of runway to run the marketing engine hard
- Creator campaigns + paid acquisition switched on
- Sales capacity to convert demos into paying builders
- The remaining roadmap shipped (client 'Needs you' view, more)

The target

~2,000

paying builders = ~£1.4m ARR
within 3 years
