

BUILDERS READY

INTRODUCING

Every build, from the first quote to the final payment.

The all-in-one app UK builders use to quote, run the job, hand over and get paid — in one place.

The problem

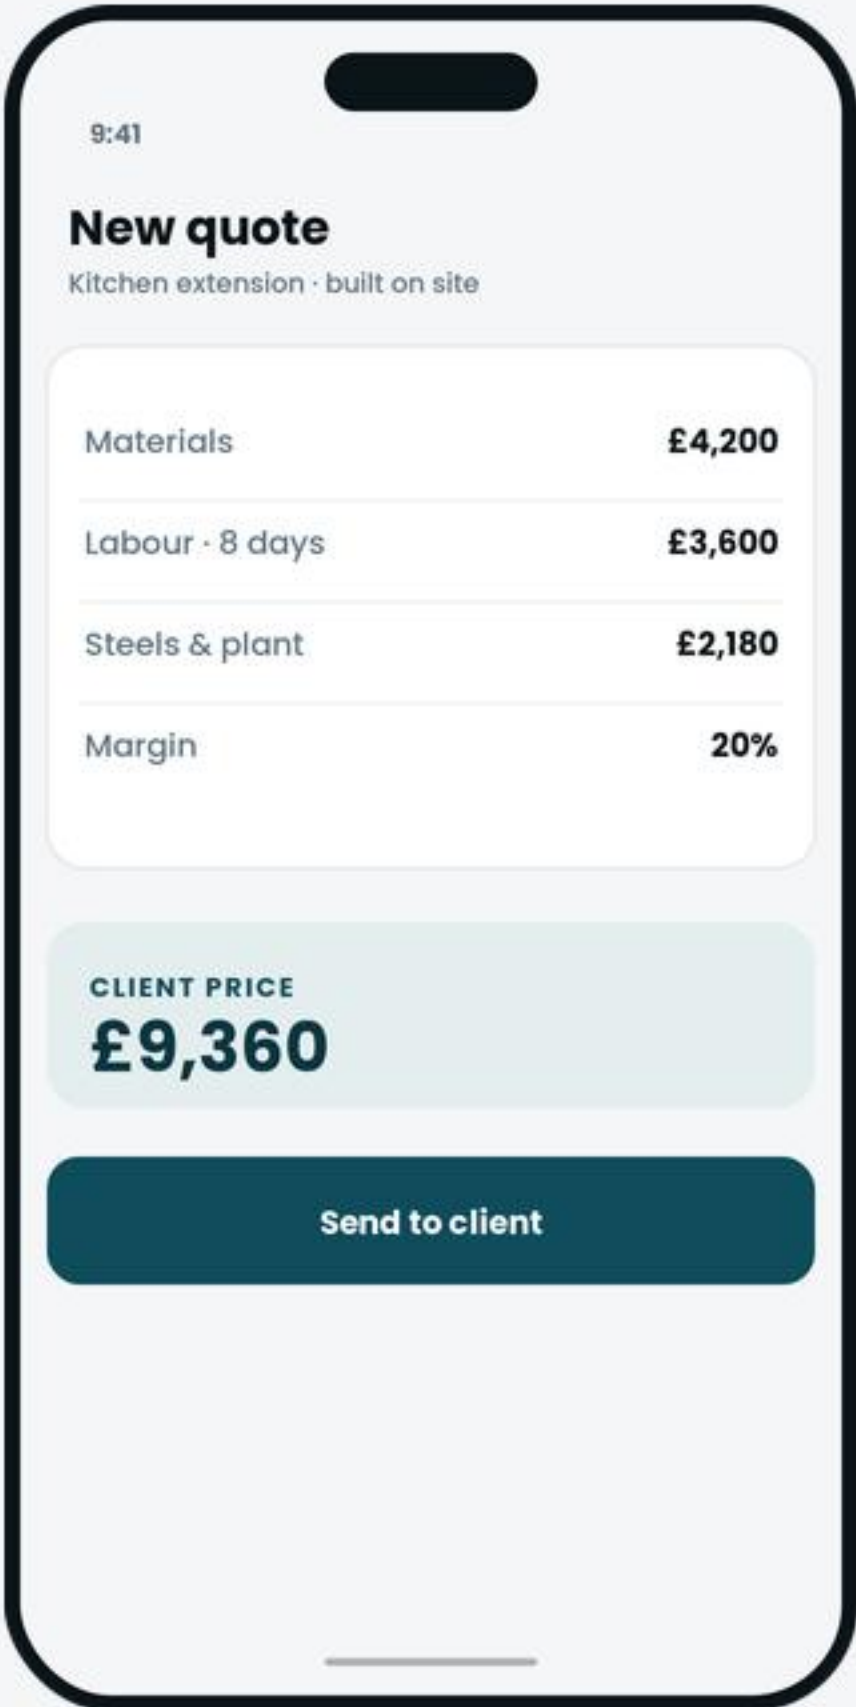

Your best job still runs on WhatsApp, texts and memory.

- Did the client actually approve that tile?
- Where did the extra £3k of cost come from?
- The handover folder is still “in progress.”
- And you’re chasing the final invoice by text.

QUOTE ON SITE

Quote before you leave the driveway.

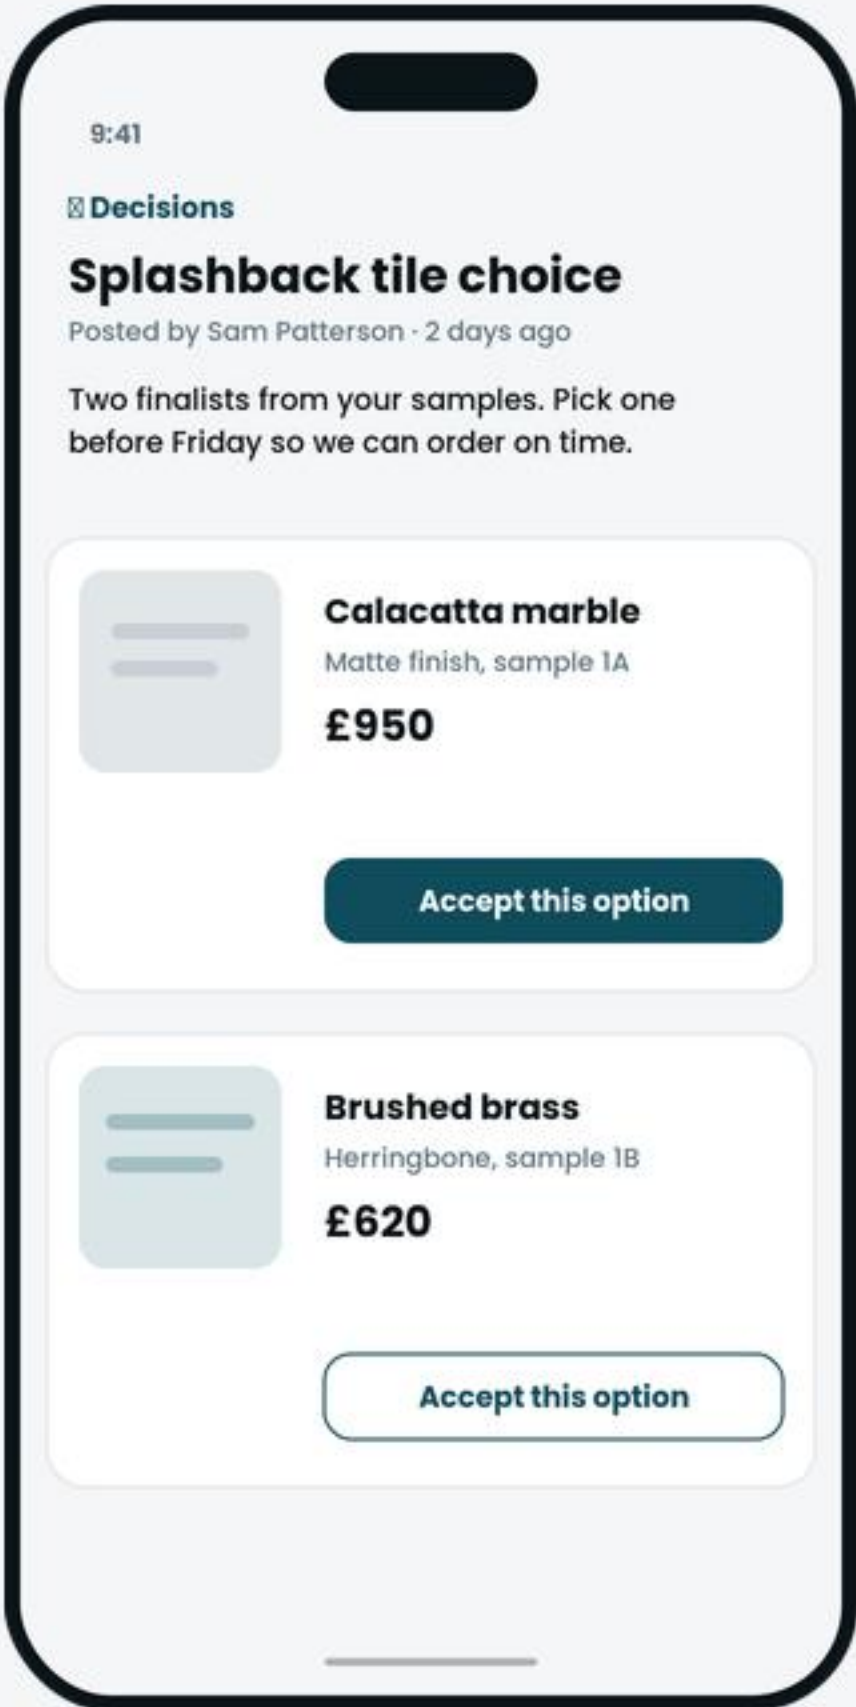

Build it up from your own rates — materials, labour, margin — and send a branded quote the client can accept on their phone.

DECISIONS

Every choice, logged and dated.

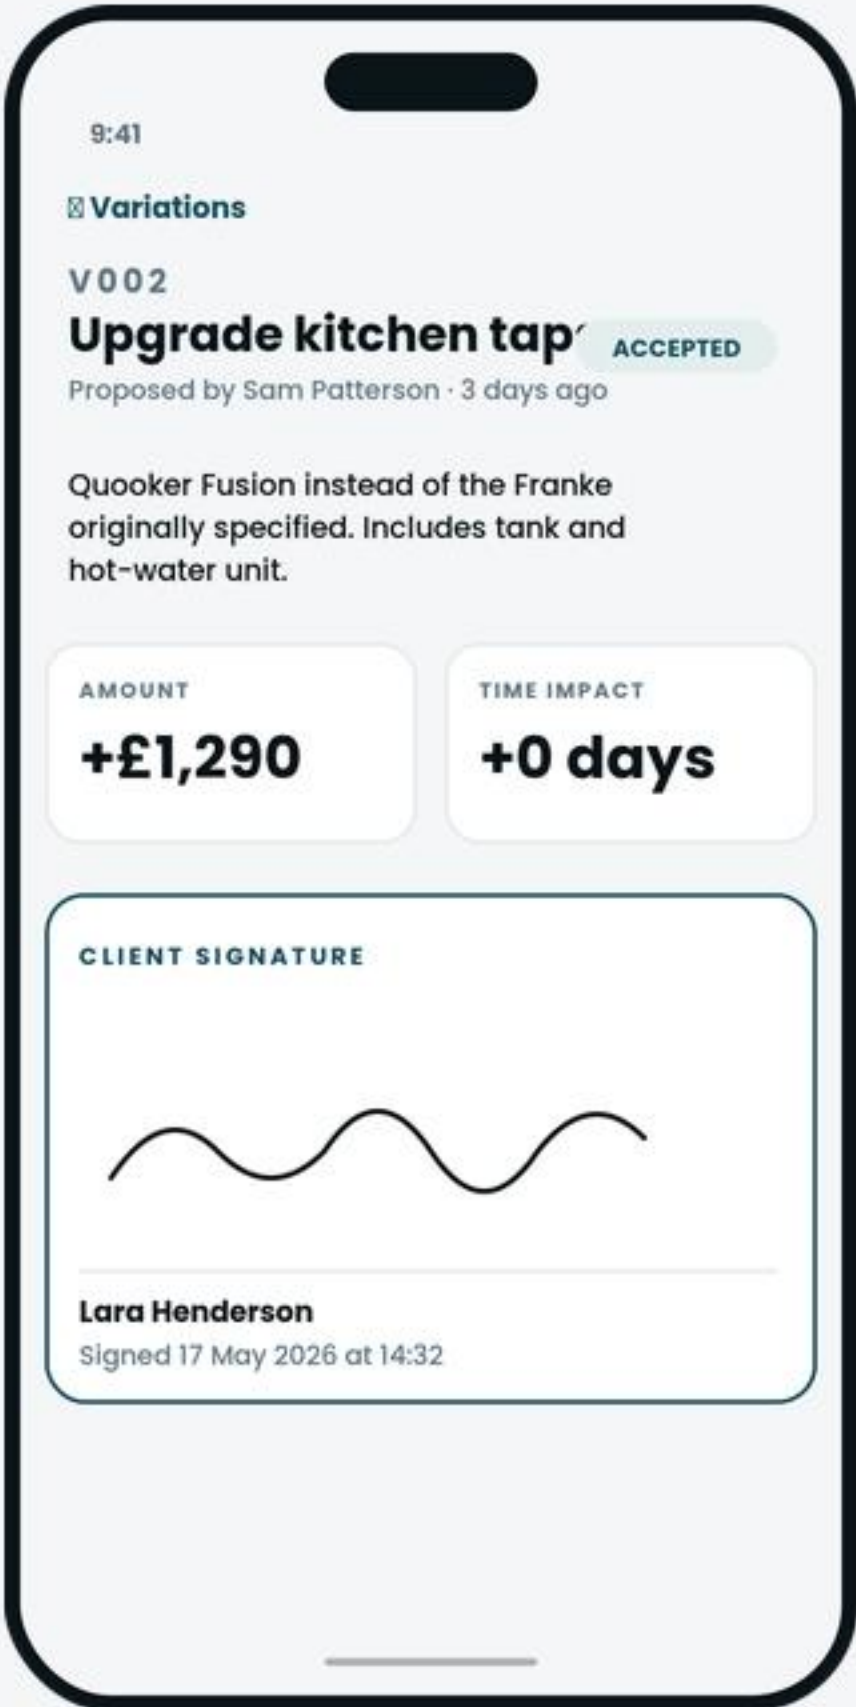

Tiles, taps, finishes — the client picks in the app. No more “I never agreed to that.” Every decision is timestamped.

VARIATIONS

Extras, signed before you start.

Scope creep becomes a signed variation with a price and a signature — so the money conversation is already had.

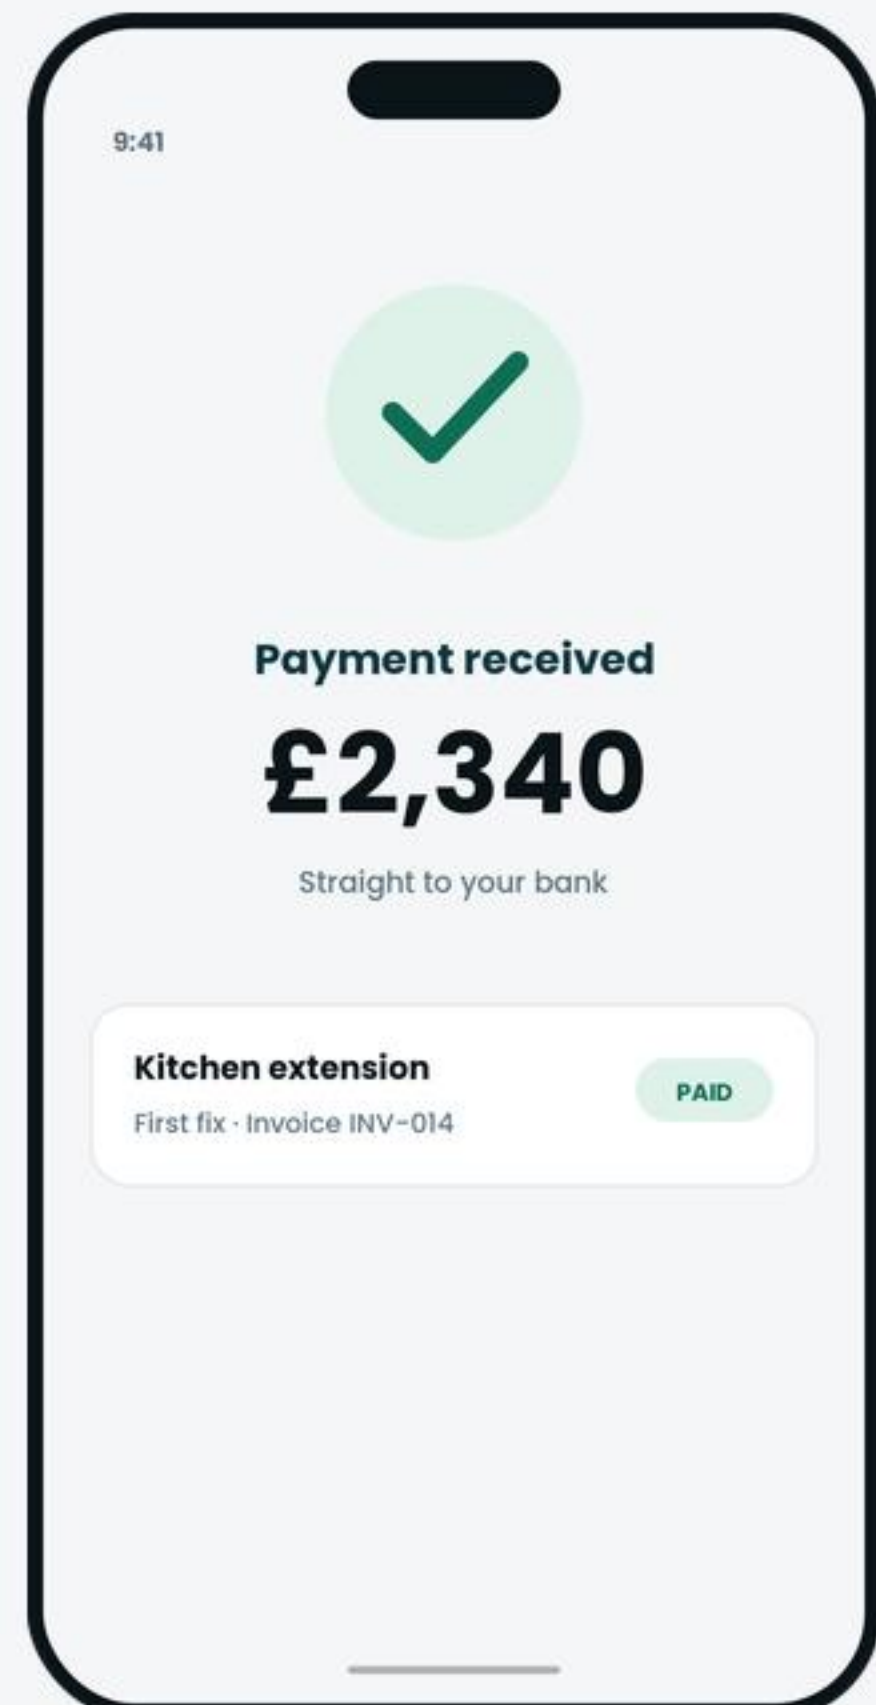

BUILDERS READY

GET PAID

Paid to your bank, not chased by text.

Clients pay staged invoices by card or bank. It lands in your account, and the job updates itself. No chasing.

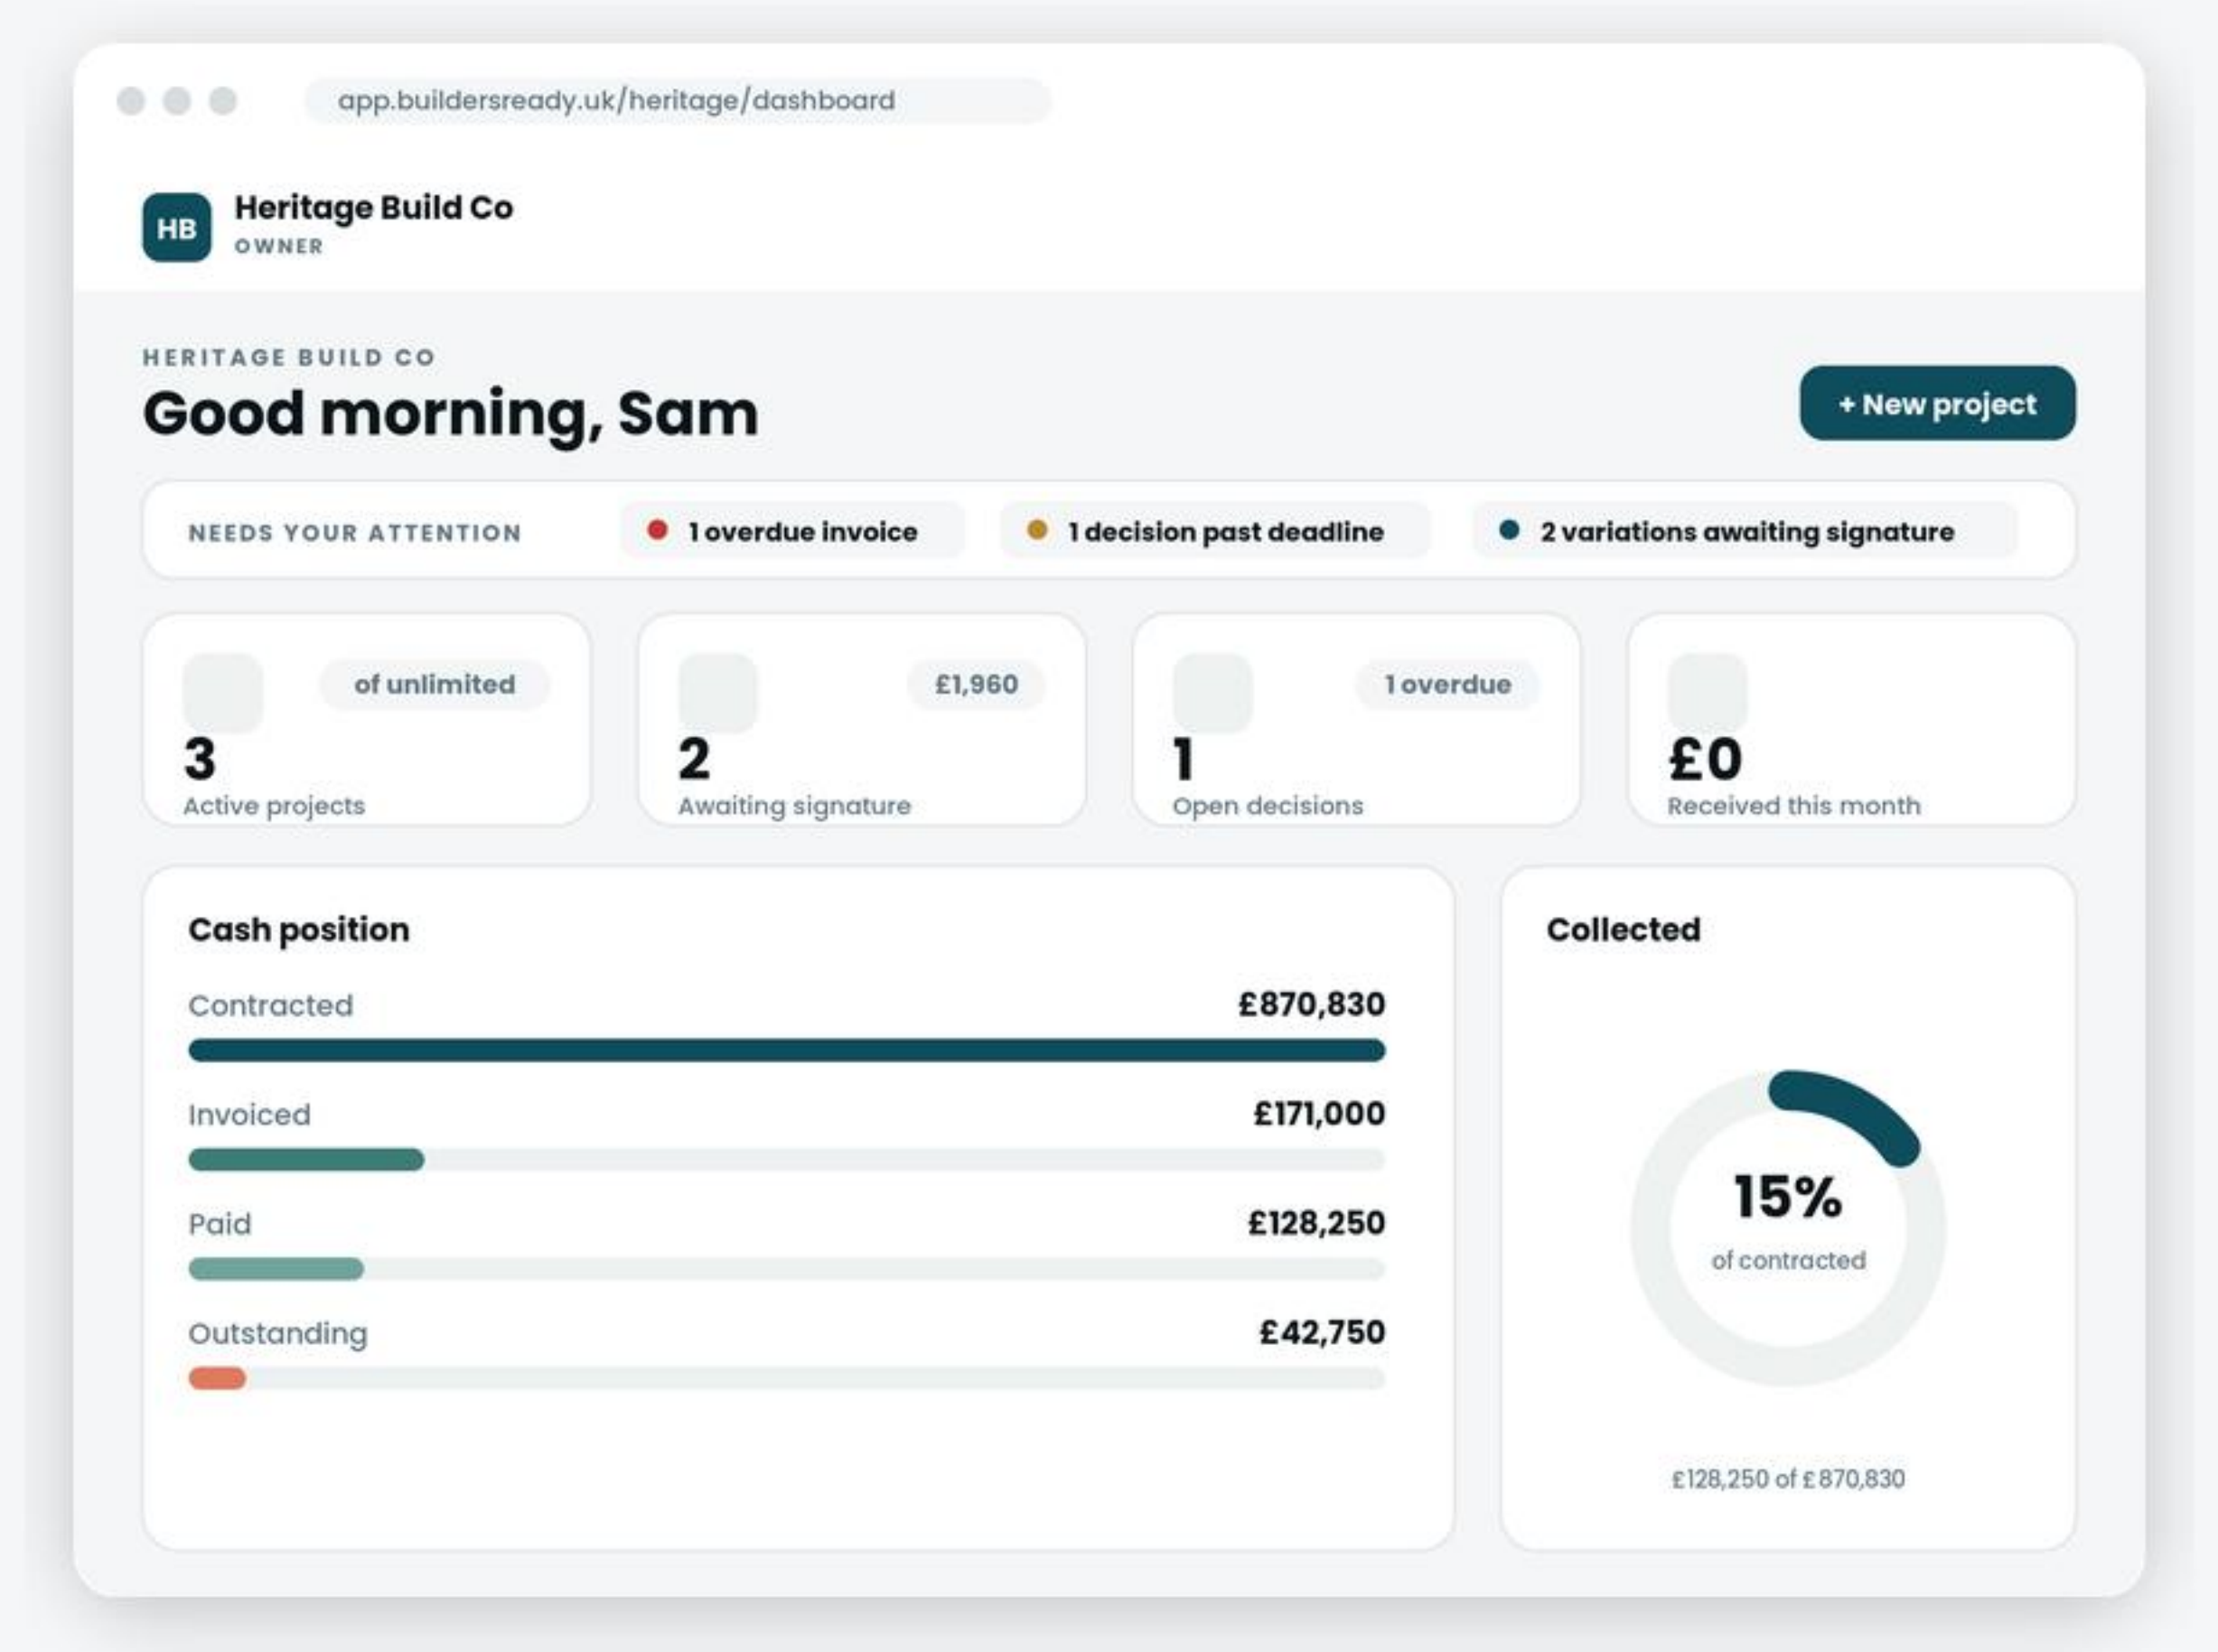

BUILDERS READY

RUN THE BUSINESS

Every job, every penny,
one screen.

Live cash position across every project – contracted, invoiced, paid and outstanding – the moment you open the laptop.

BUILDERS READY

ONE APP, EVERY TRADE

From two rooms to a full build.

Decorator, tiler, kitchen fitter, electrician or main contractor — pick your type of work and Builders Ready runs the whole job.

Decorators

Tilers

Plasterers

Carpenters

Kitchen fitters

Bathroom fitters

Electricians

Plumbers

Roofers

Extensions

Loft conversions

Full renovations

BUILDERS READY

**Quote it.
Build it.
Hand it over.
Get paid.**
