BUILDERS READY

Investment Opportunity

The app that runs the whole building job — from the first quote to the final payment — plus a built-in marketplace that brings trades the work.

Oddie Mehraj
Founder, Builders Ready

Raising £50k–£100k

THE PROBLEM

Building work runs on chaos — on both sides

For the builder

Quoting at 9pm, chasing invoices, WhatsApp threads, and disputes over who agreed to what. The admin eats the evenings and the margin.

For the homeowner

No easy way to find a trustworthy trade, no visibility once work starts, and the fear of paying a deposit to a cowboy who disappears.

The tools today

Job-management apps ignore the client. Lead sites (Checkatrade, MyBuilder) just sell leads. Nobody joins the whole job up.

£140bn+ of UK building work a year still runs on texts, paper and trust.

THE SOLUTION

One app for the whole job — and the work to fill it

1

Quote

Build the quote on site. Client accepts and signs on their phone.

2

Build

Live timeline, photos from site, and every change signed off — no disputes.

3

Get paid

Staged payments by card or bank, straight to the builder, when work is signed off.

4

Win work

A built-in marketplace: homeowners post jobs, trades quote — no per-lead fee.

Branded for each builder · iOS, Android & web · built and live today

THE PRODUCT

Not a concept — a finished product, shipping now

✓ On-site quoting

Cost + margin, branded PDF, e-signature, won quote → project in one tap.

✓ Signed decisions & variations

Every change priced and signed. The dispute killer.

✓ Staged payments & retention

Deposit, stages, completion, retention to snagging — paid in-app.

✓ Live client portal

Timeline and site photos the client sees in seconds.

✓ Costs, margin & handover

Live margin only the builder sees; one-tap handover PDF.

✓ Two-sided marketplace

Homeowners post, trades quote, two-way reviews.

WHERE WE ARE

Early, but real — product done, first revenue in

5

Paying subscribers

Fully live, paying trades — not a waitlist

3

Platforms

iOS, Android and web, all shipping

100%

Feature-complete core

Quote → build → paid, end to end

What the £50k changes

The product is built and paid for. Every pound raised now goes into getting it in front of trades — not into building it. We have the hardest part done; what we have not yet done is tell anyone, at scale.

THE MARKET

Construction is the UK’s biggest small-business sector

885,000

UK construction SME businesses

~78%

are sole traders (0 employees)

99%

of the sector are small businesses

The wedge

Hundreds of thousands of small UK trades still run on texts and paper. Capturing a fraction is a large business: 1,500 paying subscribers at our pricing is roughly £0.8m–£1m of annual recurring revenue — and the marketplace adds a second, scalable revenue line on top.

COMPETITIVE LANDSCAPE

The only one that joins up software, payments & leads

	Builders Ready	Tradify / Fergus	Powered Now	Checkatrade / MyBuilder
Client portal & signed decisions	✓ Yes	—	Partial	—
Staged payments + retention	✓ Yes	Partial	Partial	—
Lead marketplace included	✓ Yes	—	—	Leads only
Job management	✓ Yes	✓ Yes	✓ Yes	—
Priced for teams (unlimited users)	✓ Yes	Per user	Per user	n/a

ROADMAP

Where the investment takes the product

NOW

Live

Quote → build → paid, marketplace, branded client app — all shipping.

0–6 MONTHS

Scheduling

Team diary, job assignment and dispatch — the #1 requested gap.

6–12 MONTHS

Accounting sync

Xero & QuickBooks two-way sync — removes the last reason to stay on rivals.

12 MONTHS+

Certs & compliance

Gas, electrical & RAMS certificates; MTD — unlocks regulated trades.

Scheduling and accounting sync are the two features that turn “nice product” into “switch to it”.

BUSINESS MODEL

Recurring revenue, priced for teams

STARTER

£29/mo

Up to 5 active projects

PRO

£69/mo

Up to 15 active projects

UNLIMITED

£149/mo

Unlimited projects

Unlimited users

Priced by jobs, not heads — a 5-person firm pays one flat price, not 5×.

Marketplace leads included

No per-lead fee — a sharp wedge against £100–£500/mo lead sites.

Second revenue line

In-app payments (flat £3) and marketplace scale beyond subscriptions.

THE OFFER

Two ways to invest

Invest

£50,000

≈ £300,000 potential return

at a £3m target valuation (1,500+ subscribers)

- ✓ Capital returned within 12 months
- ✓ Then 10% of company value within 3 years
- ✓ Funds a full marketing push

Invest

£100,000

≈ £600,000 potential return

at a £3m target valuation (1,500+ subscribers)

- ✓ Capital returned within 18 months
- ✓ Then 20% of company value within 3 years
- ✓ Funds a small team — social & sales

Returns are illustrative, based on a target valuation if growth milestones are met — not guaranteed. Structure to be agreed with the investor.

USE OF FUNDS

Every pound goes into growth, not build

£50k — Marketing push

Paid social & search

Meta / Google / TikTok to drive trial signups

Content & creative

Daily short-form video, demos, landing pages

Marketplace demand

Seed homeowner jobs in target regions

£100k — Build a small team

Everything in the £50k plan

The full marketing engine, scaled up

Social & content hire

Consistent daily output across platforms

Sales outreach

Direct outreach to trades to convert faster

The product is finished. This is fuel for distribution — the one thing standing between 5 subscribers and 1,500.

The ask

Back the distribution of a finished product

The hard part is done and paying customers are on it. £50k lights the marketing engine; £100k builds the team to really drive it. Either way, your capital comes back first — then you share in the upside.
